AMPAD EFFICIENCY LINE® 22-210

GL00734

SF 2 June 82

TAC BASE		1 Town	2 State	3 Resource	4 Testim	5 flow estim	6 Comments	7	8	9	10	11	12	13
Bergstrom	1	Austin	TX	lo T	40-50°C	300gpm	data from Woodruff on nearby wells							
	2													
Cannon	3	Clovis	NM				unknown, on plains near TX border							
	4													
Davis-Monthan	5	Tucson	AZ	mod T			good potential - Hahman reported to Renner 194°-284°F @ 7-10k'							
	6													
Duluth	7	Duluth	MN				at least it has mean annual temp going for it							
	8													
England	9	Alexandria	LA				no hydrothermal potential known (center of state)							
	10													
George	11	Victorville	CA				lo potential - nearest wells > 15 miles away - but it is in Mohave basin area (25 mi SW Barstow)							
	12													
Hancock	13	Syracuse	NY	lo T, deep			if basement sands exist, maybe 40-50°C @ >5000'? (estim - it's out of Swanberg's SiO_2 anom)							
	14													
Holloman	15	Alamagordo	NM	lo - mod T			in dk gray area on NM map							
	16													
Homestead	17	Homestead	FL				zip							
	18													
Hurlburt	19	Ft. Walton Beach	FL				zip							
	20													
Indian Springs	21	-	NV	lo - mod T			next to Nellis AFB, 26°C well in "town"							
	22													
Langley	23	Hampton	VA	lo			Atlantic Coastal Plain (VPI has done estimates, I didn't look them up yet)							
	24													
Luke	25	Phoenix	AZ	lo - mod T			will be in gray area, i think, on new AZ map							
	26													
MacDill	27	Tampa	FL				zip							
	28													
Moody	29	Valdosta	GA				zip (coastal plain too thin?)							
	30													
Mountain Home	31	Mtn. Home	ID	mod T
