EARTH SCIENCE LABORATORY
USER ASSISTANCE REQUEST FORM

Date 2-18-81

Received by JF

I. Requestor Data

Name: Ron Strand

Company:

Address:

Phone: 473-3805

Property belongs to
Wm. Butler - (only distantly
related to Rusty Butler).

Beulah Ponte
Santura OR 97911

277-3241

User/Owner Developer State Federal

Referred to us by:

Others contacted (EG & G, OIT, etc.):

Darryl Brown, Adrian Oregon

II. Property Description (supplied by Requestor)

Location: 50 mi W. of Vale, Oregon

Land Status:

Private State Federal

Potential Resource:

hot spring - one of several on line to
Drewsey, OR.

50 x 100 yards area snow won't stick

Other nearby resources? - 1 hot spring

Proposed use and user:

in question - alcohol + greenhouse

Any present use?

III. Information/Services Requested

what can we do with the resource?

Time frame for services requested

IV. Committments Made

By ESL:

action:

schedule:

By Requestor

By Others (EG & G, OIT, etc.)

V. Miscellaneous Data

Environmental/Political sensitivity?

Other contacts on property?

Other

VI. Recommended ESL Follow-up

Action:

Schedule:

VII. Information Supplied Mail Verbal

Mr. Ron Stroud
c/o Mr. William Butler
Beulah Route
Juntura, OR 97911

Dear Mr. Stroud:

Thank you for your recent telephone call seeking ESL's assistance, via the DOE/DGE User Assistance Program, in evaluating the use potential of your hot spring resource.

I am enclosing for your information several brochures on geothermal energy and its applications, as well as an information sheet describing the Earth Science Laboratory.

We are awaiting from you a map or description indicating the location of your hot spring. Following receipt of that information and a brief literature search we will contact you to schedule a visit to your hot spring site.

Thank you for your interest in the User Assistance Program.

Sincerely,

Jon Zeisloff
Geologist
