Memorandum

To: INTERESTED PARTIES

From: Area Geothermal Supervisor

Subject: Plan of Operation, Hunt Energy Corporation
Federal Leases N-12114, N-12115, N-12116, et al,
Monte Neva KGRA, White Pine County, NV

Hunt Energy Corporation has submitted a Plan of Exploration in accordance with CFR 270.34 to drill up to twenty-one deep wells on Federal Leases N-12114, N-12115, N-12116, N-12119, N-12120, N-12121, N-12122, N-12123, N-12124, N-14981, N-14982, N-14983, N-14984, N-14985, N-14986, Monte Neva KGRA, White Pine County, NV. A copy of the Plan of Operation is attached for your review and files.

An Environmental Analysis (EA#134-9) will be prepared by the Office of the Area Geothermal Supervisor for the proposed action.

You are invited to participate in a field inspection being led by Bernard Moroz, Reno District Geothermal Supervisor, USGS, on July 11, 1979. Participants are asked to meet at the Bureau of Land Management District Office, Ely, Nevada, at 8:00 am, July 11, 1979.

All comments concerning the proposed actions should be received no later than July 22, 1979, by:

Area Geothermal Supervisor
U.S. Geological Survey
Conservation Division
345 Middlefield Road, MS-92
Menlo Park, CA 94025

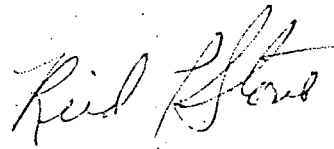

(415) 323-8111 ext.2848

We urge you to send written commentary and will appreciate hearing from you even if you are of the opinion that the existing regulatory lease terms and operational orders provide adequate environmental protection.

Further, we solicit your comments and suggestions on the proposed action. All comments will be given serious consideration in the preparation of the Environmental Analysis and any subsequent conditions of approval.

The Area Geothermal Supervisor's Office will not send a draft Environmental Analysis to interested parties for review for the proposed action. Certain parties, however, such as the surface managing agency, the lessee, the Geothermal Environmental Advisory Panel and the U.S. Fish and Wildlife Service will receive a copy of the completed EA. Other interested parties will not receive a copy of the final EA unless such parties comment on the proposed action in writing or request a copy of the particular EA pursuant to the Freedom of Information Act. Copies of the Environmental Analyses are available for inspection during normal business hours at the Area Geothermal Supervisor's Office, the Reno District Geothermal Supervisor's Office and the Ely Bureau of Land Management District Manager's Office.

Attachment

A handwritten signature in cursive script, appearing to read "Reid R. Stone".
