Dear Sir,

re: TAPE RECORDED LOGS - ELEVEN-MILE CANYON #22-14

Enclosed is a copy of the tape recorded borehole log from our Eleven-Mile Canyon Hole # 52-14. Several logs were run and recorded by Schlumberger on January 23, this year. Also enclosed are the field copy prints of the logs.

As I understand it, you have already discussed with Roger Bowers what is to be done with these tapes. If you have any questions, please feel free to give me or Roger a call.

Sincerely,  
HUNT ENERGY CORPORATION
