Mr. Mike Wright
University of Utah Research Institute
420 Chipeta Way
Suite 120
Salt Lake City, Utah 84108

Dear Mr. Wright:

Subject: RAFT RIVER HYDROTHERMAL SYSTEM CASE STUDY REVIEW GROUP

Thank you for agreeing to serve on the Raft River Hydrothermal System Case Study Review Group. We are pleased with the quality of the committee and are looking forward to meeting you. The members of the committee are:

W. S. Keys
J. H. Leher
W. Mabey
C. Morris
S. Oriel
T. A. Prickett
J. H. Ramey, Jr.
M. Reid
M. Wright

The review group will have its first meeting in Pocatello, Idaho, in conjunction with the Raft River Geoscience Symposium on April 16, 17, and 18, 1979. A schedule of the seminar and a list of speakers are attached.

The first review group meeting will be held on Wednesday, April 18. At that time, the group will consider what additional data are needed to generate a geoscience model of the Raft River Hydrothermal System. It is expected that the group will agree on a date when their recommendations for additional testing at Raft River and a critique on the proposed hydrothermal case study will be available.

As you know, producing a complete case study on a liquid dominated, fracture controlled hydrothermal system is a significant and exciting task. We look forward to meeting you in Pocatello to discuss the task.

If you have any questions or if we can be of any assistance in travel arrangements, please contact Robert Stiger or Linda Artis (208-526-9389 or [FTS] 583-9389).

Sincerely,

Clayton R. Nichols, Asst. Director
Office of Geothermal Energy
Energy and Technology Division
