

w/ Wright Ward
 Foley Reed
 Nichols Gray

3/21/79

Update of 790 for $T < 90^{\circ}\text{C}$
 expansion w/in a year or two
 USGS will cooperate

computer support

T° calculations - corrections etc.

M. Reed: "JURI project w/ USGS support"

M. Reed in agreement

PMW - need to publish as USGS publication to ^{impact it.} ensure credibility

M. Reed may take Muffler's place on next Circular
 assessment scheduled for 1983

Foley: will prepare schedule of state's data compilations
 Assessment input should be separate from state-coupled
 i.e. different levels of interpretation

Other help: Mariner, Swanson, WR rep?

PMW will write scoping document after meeting w/ Meulo Park

USGS Participation + Coordination w/ STATES

WRD rep for each state

future meeting w/ them appropriate

SITE Selection

→ TALK TO

IO people

on drilling

ASK Roy Mink

DAVE Chapman

New Program Elements:

Hydrothermal District Concept - no site specific per se
Encourage states to study via drilling

\$ from State Coupled program ~ 900 K
~~800~~ M for 80 for STATE Coupled
some of which for Atlantic Coastal Plain

Clay feels some of this

B. Gray feels good for Congressional support

Region 9: Saer:

Region 10 Seattle

AK

WA

OR

Coordination of Phase II + III w/ OR.

but not Phase I

OR people need to be told to communicate w/ us
w/ our time frame

Clay will talk to R. Black about this

use OR data to guide Phase II + III drilling
look at all non-electric POW sites (proposed + funded)

Co

NM

ESL Role Definition

ESL responsible for

Ca

Ha

Program Reviews - Brophy will write
get WRD people too
through USGS participation

Workshop atmosphere w/ detailed data presentation
2 letters

1st - to all states

2nd - specific critical states before field season

B. Gray

Matching of \$ by state govt.?

EIS

DOE guidelines well established & agreed upon by all regional offices

w/ guides to sample EIS reports

Drilling

Road shouldn't be done by govt

Encourage drilling by private faction where ever possible

3/21 P.M.

CALIFORNIA CONTRACT

Contracted thru Sam

IO = operations office running the show

Clay = office mgr.

M. Malloy has no control

HAWAII

Kona coast - currently drilling

supported by an Hawaii senator

deep, cool holes

List of decisions
here to Clay

M. Reed:

Should be looking at drift systems

2 at Monahau

2 at Kalaena

} Helsley agrees

problems w/ lava-flow danger

Hawaii contract

then S&W

managed by ID

Alaska

Not producing enough for amount of \$ DOE gives them

WA

Crown/Zellerbach - Cascades Area

Schuster will emphasize Cascades

will need analytical, dating advice

OR

Riccio - M. Reed feels is a negative influence

NW Natural Gas - ready to cooperate if we get the \$\$

Mt. Hood leases

Lakeview

small district heating system?

Need for mega district project in Portland

Mt. Hood project nearly finished

except for Rheidity study

Northern Caldera

250K State coupled / 530K Cascades program
mostly into drilling

eastern Oregon drilling for State Coupled
370K to Blackwell

support for O&W
Normy Goldstein

Industry data at Klamath Falls
needs to fill in data

LBL well testing there

part of reservoir engineering program

Ca

Needs help in direction - but R. Martin basically good

250K of State Coupled

↓ 50K to O&G for high T^o in Geysers
using industry data

790 Update

We will do the data interp to assure uniformity
