

3/15/79

MANAGEMENT DOCUMENT - POINTS OF CLARIFICATION

- Phase I - Phase II (pg. 2)
 - 1) how does new map goal fit in (which phase)
 - "preliminary map vs. final map" final report (pg 2, 3)
 - 2) coordination Phase II site selection w/ ESL etc.

- Specify which states involved!! (pg. 4)
- ESL Role (pg. 5, 6)
 - 1) Amount/type of geoscience technical advice
 - 2) Role as manager
 - degree of state's accountability to ESL
 - (as stands now ESL only in technical advice + coordination role)

- LASL's Role ?? (pg. 7)
 - Az
 - NM

- Public Map (pg. 8)
 - Need to stress immediate publication
 - List of appropriate data sets (pg. 14)
 - quasi-uniformity of these maps?? (pg. 14)
 - NOAA's role (which states)

- Preliminary Map + Report Section (pg. 13)
 - Question of Report vs. Sources for public map

- Map Titles - must be consistent
 - forget prelim + final - use public + technical or scientific

- Schedule of periodic formal reviews

- Flow diagram for geothermal data
Change priority / position of map publication

pg. 18
