

R. F. SMITH CORP. GEOTHERMAL DATA LOG

LOGGING GEOLOGISTS ROBERT WILLY, KARE ABAMTA DEPTH LOGGED FROM 117' TO 572' PRESSURE INST. TYPE TEMPERATURE TYPE THERM ELEVATION 4335' DATE LOGGED FROM 3/2/60 TO 5/22/60

Engineering Data: 1 7/8" HOLE SIZE, 26" OPERATED, 19 1/2" CONDUCTOR, 13 3/8" CONDUCTOR, DRILLING RATE, ROCK DENSITY

Air and Mud Drilling Data: MUD TYPE - WATER & GEL, TEMPERATURE (°F), PRESSURE PSIG, CO2 ppm on Air Drilling, TOTAL MUD GAIN/LOSS

REMARKS: SURVEYS, FORMATION TESTS, MUD ELECTRIC, AIR

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane

Geological Log: Lithology, Core Description, Temperature, Pressure, Methane, CO2, Ethane
