

EXPLANATION

- Station location
- Hot spring location
- - - Approximate fault location
- - - Outline of known geothermal resource area

This map is preliminary and has not been edited or revised for conformity to Geologic Survey standards.

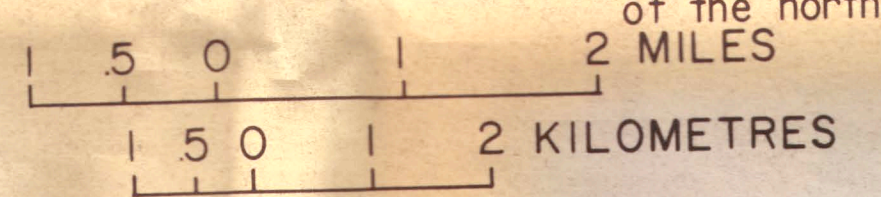

120° 15'

EXPLANATION

- Station location
- Resistivity contours shown are on a logarithmic interval in ohm-metres. Computed from the average of the north-south and east-west scalar impedances.

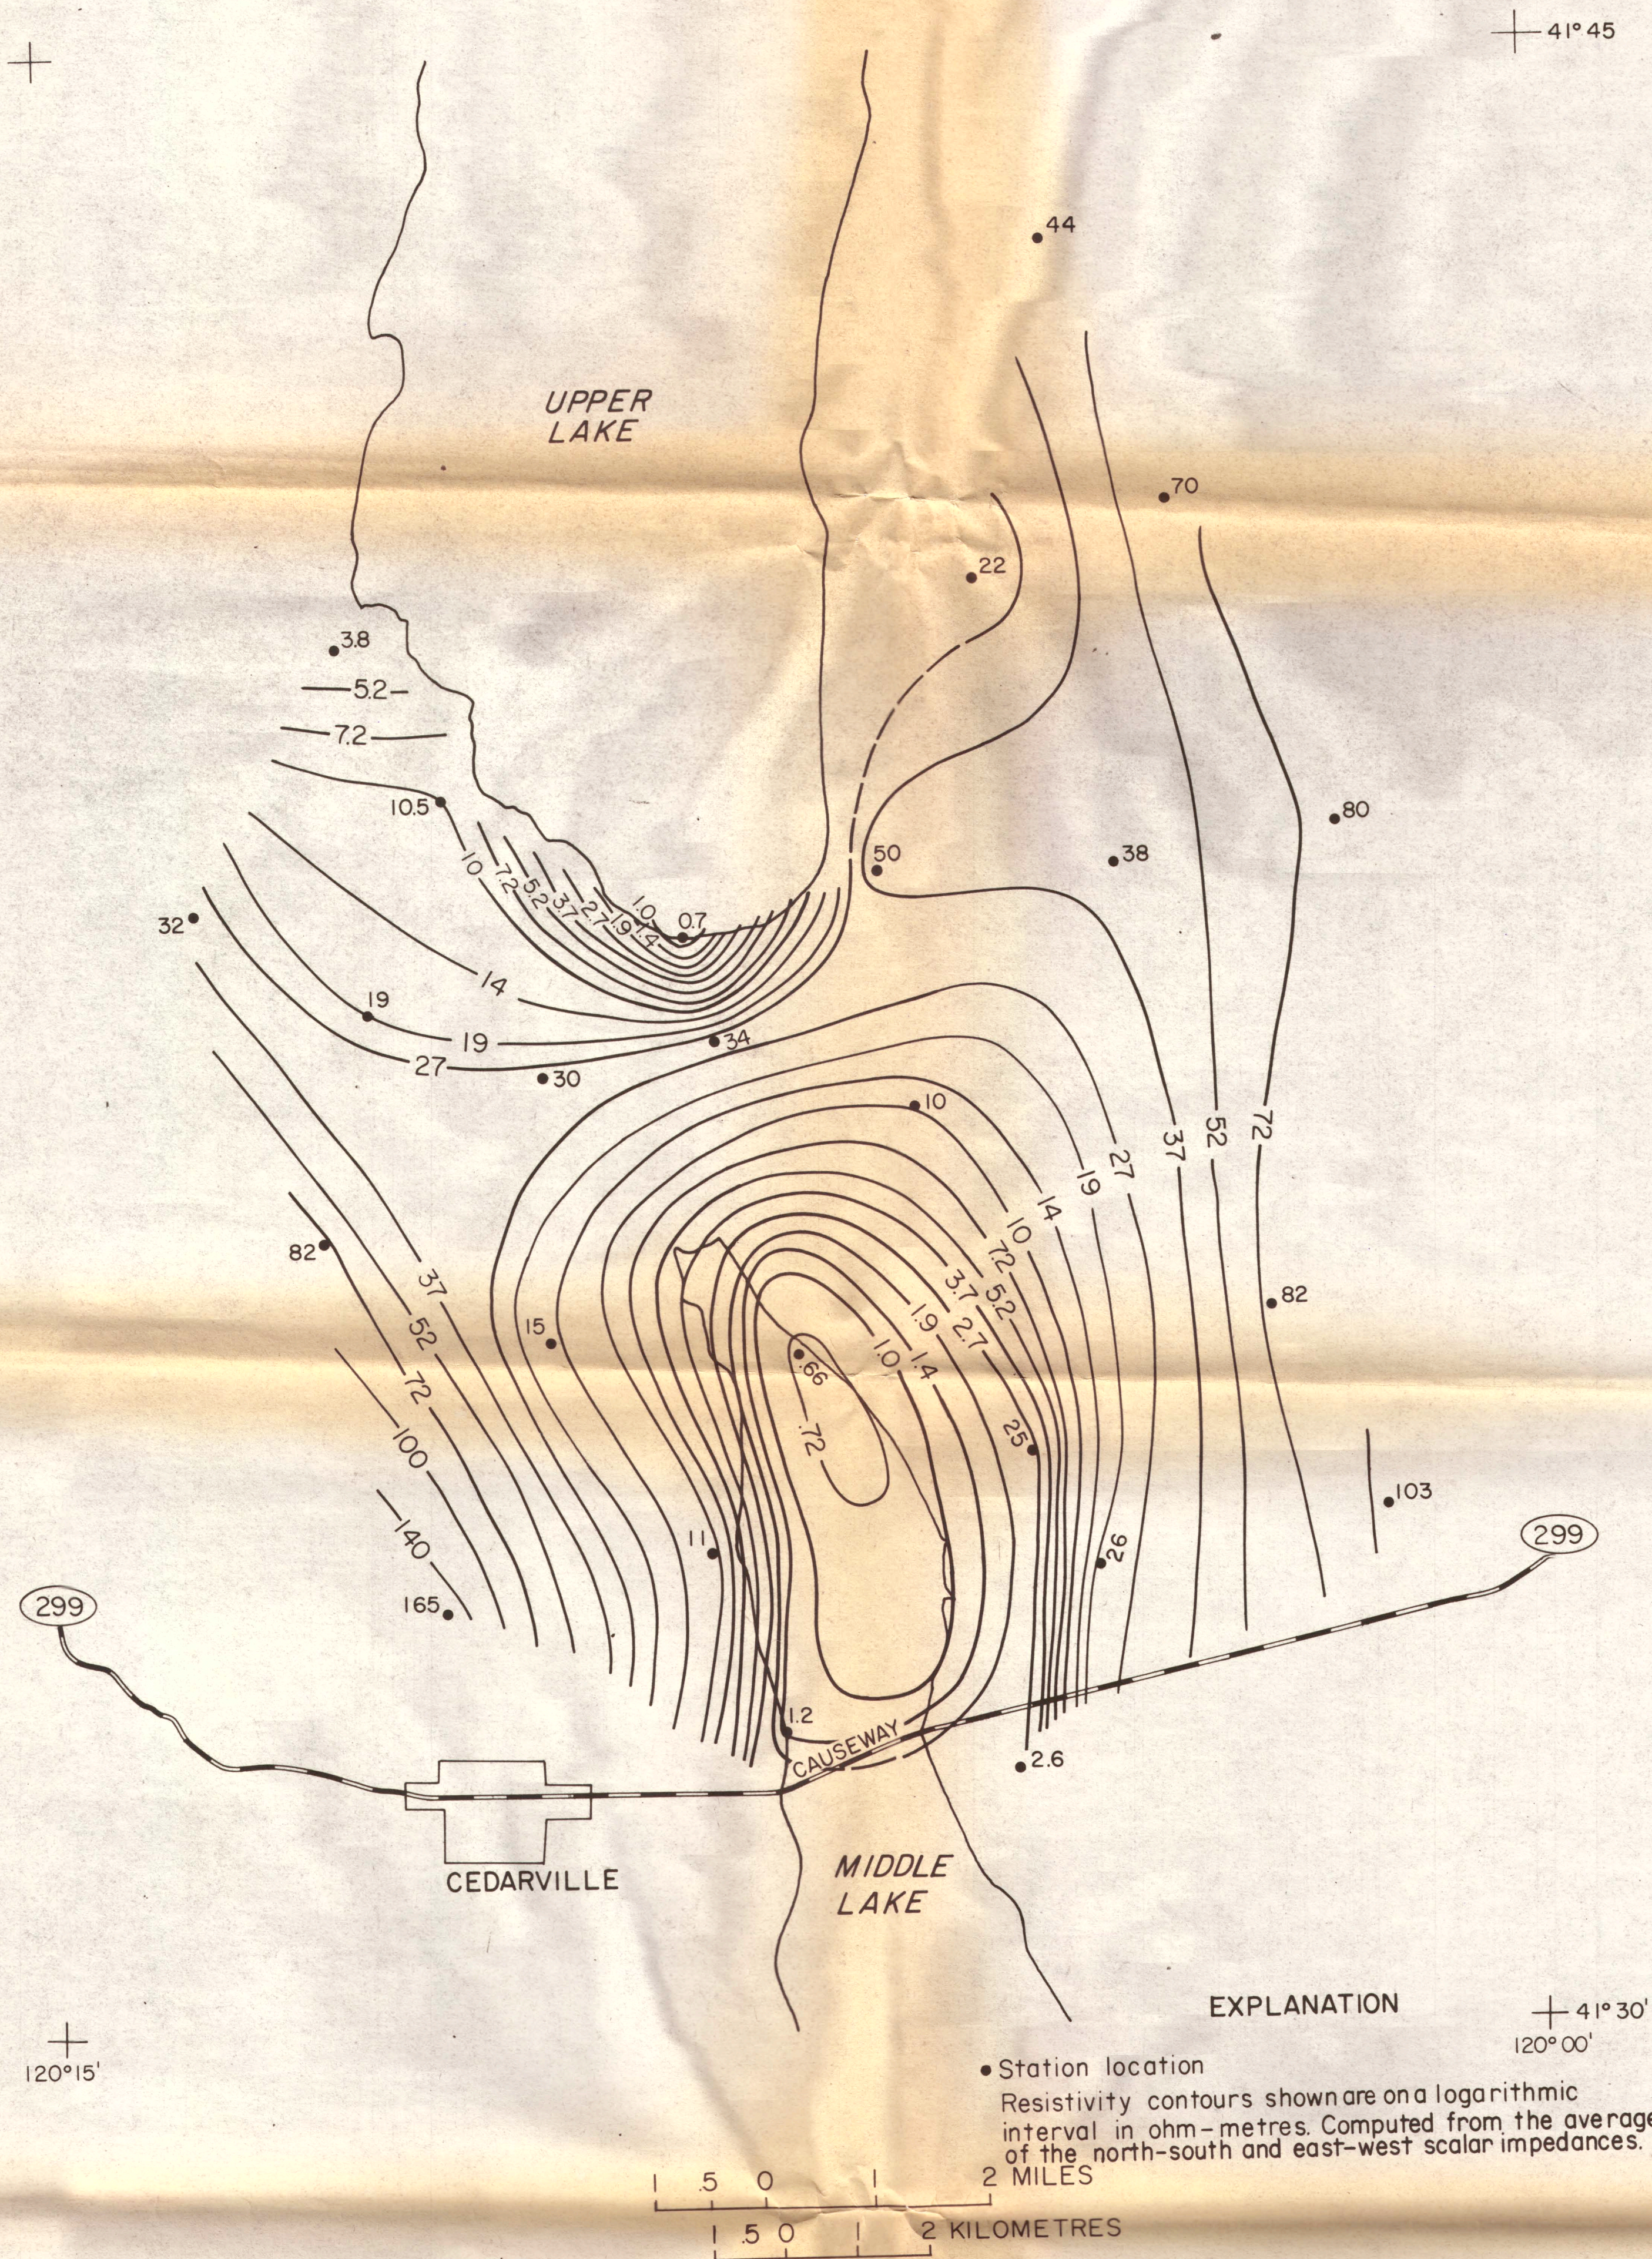

41° 30'
