

April 1, 1985

Mr. Richard L. Lohse
1984 Mulberry Avenue
Las Cruces, NM 88004

Dear Dick:

Your final temperature logs for the Hillsboro project have been received, and the data looks good. We appreciate your offer to do a short interpretive report; however, it is the kind of thing we routinely do. Therefore, we will not require an interpretive report.

Thanks again for the temperature data. Good luck with your new consulting venture.

Sincerely,

STEAM RESERVE CORPORATION
