

INTER-OFFICE MEMORANDUM

SUBJECT Electromagnetic Surveys

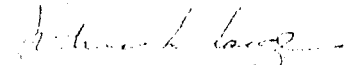

DATE May 7, 1979

TO: W. M. Dolan, H. J. Olson, H. D. Pilkington, J. Roth

FROM: A. L. Lange

I have discussed with Bob Gray of DOE the possibility of operating LBL's EM GO System at McCoy and Tuscarora. He is amenable and will plan to do so following its application at Beowawe.

The system should provide an electrical section for comparison with our MT/AMT soundings.

Arthur L. Lange
