Attention: Mr. Fred Berkman

Dear Mr. Berkman:

Here are the conductivity values for the samples which you brought over. Of the four, only three contained a sufficient amount of sample to run a measurement.

Sample #	K_b (mcal/cm·s·°C)	ϕ_{is} (%)	K_{is} (mcal/cm·s·°C)
864-66-8 850-860	6.21	10	5.35
864-90-43 430-440	6.56	10	5.63
864-66-8 800-810	insufficient sample		
1030-39 460-470	7.85	10	6.61

Sincerely yours,

Diane Westfahl
