Re: AMAX Exploration, Inc. Proposed Plan of Operation to drill
geothermal test wells at McCoy Unit Area,
Churchill County, Nevada

Dear Kirk:

This letter is submitted as an addendum to the above referenced report and may be cited as authority for the additives and changes listed below:

LOCATIONS AND ROADS EXHIBITS "A" AND "C"

The planned well locations as shown in Exhibit "A" and "C" were based upon unsurveyed topographic maps. The enclosed drawings by Sharp, Krater & Associates show the horizontal ties to the 1979 BLM cadastral survey at a scale of 1:1000 and a contour map for each hole at a scale of 1:30. The cadastral survey resulted in the following changes in Kettleman numbers for the wells:

<u>Original Designation</u>	<u>Survey Designation</u>
56-8	66-8 Unit well
24-7	14-7 Unit well
47-6	17-6
87-32	17-33
13-20	21 -20
37-9	38-9

Under separate cover, three prints and a sepia of the horizontal ties at a scale of 1:2000 are being mailed.

Sincerely,

H. D. Pilkington
