Re: AMAX Exploration, Inc. Proposed Plan of Exploration
McCoy Unit, Churchill and Lander Counties, Nevada (November 1980).

Dear Scott:

This letter is submitted as an addendum to the above referenced report and may be cited as authority for the additions and changes listed below.

The planned well locations shown on Exhibit "A" and "B" were based upon unsurveyed locations. The enclosed drawings by Sharp Krater & Associates show the horizontal and vertical ties for six (6) of the proposed well sites and a contour map for each of the holes. The survey resulted in some changes in Kettleman numbers:
