GEOHERMAL BRANCH

INTER-OFFICE MEMORANDUM

SUBJECT: Option on Fee Lands, Deeth Area

DATE: December 18, 1979

TO: Jack Letts

cc: Larry Hall
Dean Pilkington

FROM: Paul W. Greaves

Further to the recent meeting of the "Exploration Committee," which you attended, it has been decided to attempt to secure an exploration permit, with option to lease on the following fee lands in the Deeth area:

All of the available fee lands in N $\frac{1}{2}$ T38N R59E

All of the available fee lands in T39N R59E

I understand that your title work indicates that two major fee holder(s) control all of the above described property?

I would be grateful if you could contact those person(s), and negotiate an agreement and option to lease at your earliest convenience.

Thank you.

Sincerely,

PW Greaves
