Mr. H. D. Pilkington
Portland Office

Dear Dean:

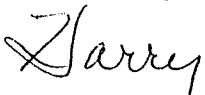

Enclosed is a map of the La Grande area showing the location by red dots of the proposed additional thermal gradient wells located by Bill Dolan. I've added a possible additional well marked by a red "x". Most of the wells are located on Amax' leases but the wells in the valley to the southeast of Union are on land not controlled by Amax.

As these wells were located on the map only, I will leave it up to you to modify their positions if necessary, and to make any suggestions for additional well sites that you think may be of value.

The yellow and green lines show the gravity traverses that were run by John Deymonaz and John Towers last week. The data from this survey will be sent in for reduction this week and hopefully the results will be available soon.

Best regards.

Sincerely,

Harry J. Olson
