in Beaver and Iron Counties

Dear Mr. Green:

To date the referenced temperature gradient test holes have not been drilled. It is the intention of AMAX to commence drilling operations during the spring of 1979.

The referenced permit was due to expire November 24, 1978. We request that an extension until November 24, 1979 be allowed. Please advise as to your decision.

Thank you.

Sincerely,

Larry Hall
Geothermal Property Manager
