

# GEOHERMAL RESOURCES COUNCIL

TED J. CLUTTER  
Executive Director

Date: May 19, 2006

Subject: Draft Paper Conditionally Accepted for GRC 2006 Annual Meeting

---

*The Structural Controls on the Medicine Lake Geothermal System.* Clausen, S., M. Nemcok, J. Moore, J. Hulen, M. Stark and J. Bartley

---

Your Draft Paper for the GRC 2006 Annual Meeting has been conditionally accepted by the Technical Program Committee for publication and oral presentation.

A marked up copy of your original draft paper is enclosed with reviewer comments. Please make required corrections to your paper as indicated. Volume 30 of the GRC *Transactions* will be reproduced solely as a CD. It is essential that you follow the instructions provided below for Final Paper submission. ***The deadline for receipt of Final Papers in specified format is June 9.***

- Send two hard copies of text.
- Send text as a stand-alone, separate file in Microsoft Word. Text should not be formatted in columns, or made to look like a *Transactions* page. Text should be full-page width, single column, with indicators depicting where figures should be placed.
- Send illustrations and figures as separate TIF or EPS electronic files from the original drawing program. Do not save illustrations or figures to Microsoft Word or embed illustrations and/or figures in your text file(s) – this reduces final presentation quality.
- Send two hard copies of figures, maps and other illustrations.
- Photographs should be sent as original prints or separate high-resolution electronic files.
- Provide key words for the GRC On-Line Library database. ***This is an essential task!***
- Include a GRC Paper Submission Form with your Final Paper.

***We look forward to receiving your Final Paper by June 9.*** You will be notified of its acceptance, and provided with more details about the Annual Meeting as planning progresses. If you have any questions, visit the “Annual Meeting” page of the GRC website at [www.geothermal.org](http://www.geothermal.org), or contact GRC staff by phone at: (530) 758-2360.
