SUBJECT: LYONS PRESSURE PROBE

Dear Mr. Shots:

As per our phone conversation, we are unable to provide additional funding to support Terra Tek during the Raft River 1-7 injection test. Our compromise position is to have EG&G Idaho, Inc. set the probe and gather the data. DOE-ID will accept the responsibility for the probe during this test. A copy of the data will be transmitted to Terra Tek. If the printout cannot be copied, the original will be given to Terra Tek by EG&G after data assimilation.

We are pleased that this compromise is acceptable to you and greatly appreciate your cooperation in the matter.

Very truly yours,

Leland L. Mink, Chief
Resource Definition Branch
