RECORD OF TELECON

From: R. PISCITELLA, M. STONE (EGG SUBCONTRACTS)

TO: STAN TERRY (G.E. MOTOR SHOP S.L.C.)

TOPIC: FIXES AND DELIVERY OF PROGRESS PUMP
MOTOR FROM WELL #2.

DATE: 2-20-79 11:30 AM

ASK FOR STATUS OF MOTOR. GOT THE FOLLOWING
STORY:

WHEN PUMP WAS RE-ASSEMBLED LAST THURS (2-15-79)
THE CRAFTSMEN WERE NOT ABLE TO ADJUST THE END
PLAY IN THE SHAFT TO THE REQUIRED 0.005" (IE ADJUST-
MENT SCREW BOTTOMED OUT). ENGINEERS IN SAN JOSE
(IE G.E. ENGINEERING OFFICE) WERE CONTACTED. THEY
CALLED BACK THE NEXT DAY (2-16-79) WITH THE INFO.
THAT THERE WOULD HAVE TO BE OTHER CHANGES MADE
TO THE MOTOR (IE CUT END OF SHAFT, INSTALL SPACER
RING, MODIFY END BELL). THIS WILL REQUIRE THAT
DRAWINGS BE MADE AND SENT TO SLC SO THAT THE
SHOP THERE CAN DO THE WORK.

THE ENGINEERING STAFF AT G.E. IS BOOKED
UP AND WILL NOT BE ABLE TO FINISH DESIGN AND
DRAWINGS UNTIL THE END OF THIS WEEK. S.L.C.
WILL TAKE \approx 2 DAYS TO COMPLETE THE WORK ONCE
THEY GET PRINTS AND PARTS. ALL REQUIRED PARTS
ARE THOUGHT TO BE IN STOCK AND THIS IS BEING CONFIRMED
NOW.

I EMPHASIZED THE URGENCY OF THE MOTOR AND ASK IF
WE COULD EXPEDITE IN ANY FASHION. STAN AGREED TO
CALL G.E. MANAGEMENT TO TRY TO EXPEDITE. WE WILL
CALL FIRST THING TOMORROW TO CHECK. ALSO TOLD
STAN THAT IF INFO. AND PARTS ARE RECEIVED FRIDAY
THAT OVERTIME WOULD BE AUTHORIZED TO COMPLETE THE
WORK THIS WEEKEND.
